Bow to Kill an Enemy DE "Children," said a kind father to his little family, as he took a seat by the fireside, and gathered them round him for a pleasant talk, "which is the best way to kill an enemy?" Why, shoot him, to be sure," said

"No, starve him," said a record.
"No, starve him," said a third.
"But I think," said their father, "I can show you a better way then this. An enemy may be killed without taking from him his life, or shedding e single drop of his blood. Let me tell a story, to show how it may

"There was a farmer once, who was a very cross, surly, disagreeable man. Everybody in the neighbor-hood knew him, and every hody disthe most of whatever went wrong about him, and the poor offender ol-ways met with severe punishment.

"This remark, of Farmer, Green's soon got affoat, and all sorts of things were said about it. He seemed the very last man to kell any one, for his looks, and works, and actions, all told of a loving heart which throbbed in his bosom and directed his life. Nobody could think for a moment of his becoming a murderer. Mr. Green's intention at length came to the ears of the ill-natured farmer, and you may be sure he was not at all pleased about it. Everything he could do to tease, annoy, and even injure Mr. Green, was done; but, somehow or other, the man who was to 'kill' this ugly-tempered farmer took it all in good part, and spoke as calmly and looked as kinkly as ever.

BRAINS VS LABOR.—The following beautiful passage is by the Rev. J. Corning. We have received from Mr. Wm. F. Beasley, of Greensboro', N. C. through Major Jas Sloan, of the same place, a specimen of sugar made from sorghum, and along with it, a pam-phlet relating to the process of manufacture and its cost. The sugar is a very fine sample and good enough for anyhody, being equal in color, brightness and sweetness to the best refined "A" sugar. Mr. Beasley says: "Of the certainty of this process, none need have any doubts, for it has undergone the most therough investigation and surmounted the most skeptieal doubts." He recommends the use of new seed of the "Black Imphee" -that in common use being mostly impure—and says an acre will yield five hundred pounds sugar, fifty gal-lons syrup and twenty-tive bushels seed. At half these figures, it would be a very profitable crop. The sugar made by this process costs from five to eight cents per pound, and syrup from twenty-five to thirty cents per gallon.

WASHINGTON, June 21, 1869. There is more in the Imperialist movement than appears at first sight The Imperialist organ may be simply a venture of sensation-loving Bohemi-ans, or it may have been established by deep-thinking, far-seeing men.— It is, however, immaterial how or by whom it was established. That it has brought to public attention some startling facts, as well as speculations which may or may not be verified, is undeniable. Few can say what will be the result of the changes so rapidly taking place in the Government of this country, or where the supreme power will finally be vested. Revolutions never go backward. The end is not yet. We can only await the developments the future will bring.

Hon. When the fit was off, the poor brute would become very weak, persons were chased on to the tavern porch, and one individual narrowly escaped being bitten. In its rage to bite, its own tongue was nearly bitten off. The animal was finally securred in a lot, where it died during the night in great agony. It was a valuable horse, and was used by Dr. Chambers in thrashing grain, with a machine, through the neighborhood. What is still more terrible to contemplate, is the fact that this horse is sup-posed to have been bitten by a dog be-longing to Mr. Elies Baker, that was thought to be mad, and bit two per-

DEAR SIR, In your paper of the 8th instant, where you were pleased to draw attention to the business of the National Life Insurance Company of the United States of America, the figures got into wrong positions in stating the number of policies ar 4,179, the correct numerals were there, but they should have been placed so se to read 4.791, that being the number of policies issued by the Company previous to May 1st. At this date (May 14) the number issued is 5,025, insuring \$14,194,500.
Whenking you for your antform courteey, and for the gendid manner in which you have written of the Nationals beremain, yours respectfully.

J. U. Orvis, Manager.

As the Incorporators, it is with pleasure we announce to the public the organization of the Catawba Valley Land Company. With a full Board of Directors, and a full corps of competent and reliable officers we prediet a brilliant future and successful career for this useful and benevolent institution.

In appearing then before the people of this and other States as candidates for public patronage, it is but due to the opinion of those whose confidence and esteem we hope to merit, that some at least of the objects had in view by the Incorporators of this company should be made known. It is not. however, the purpose here to enter into details and to elaborate the many reasons which induced its friends to ask of the Legislature of North Carolina the present charter with its liberal and benevolent provisions; sufficient to say, that one great and prominent question kept constantly before their eyes, was, as to the best means to be adopted by which the large and profitless surplus of our landed interest could be disposed of in the shortest period of time and to the greatest

advantage to our people and State .-This we may say was the main reason which led to the application, and the one most apparent to the inquisitive avestigations of every curious inquiring mind. Impoverished as our people have been by the results of a terrible and disserrous war, with little else left them to call their own except their wasted lands, with comparatively no market for these by the ordinary mode of conveyancing, with limited capital to supply the wants of business, the great and growing scarcity of money, and the reluctance of immigra tion to seek among us pleasant homes and fertile farms, we have been induced to ask of a generous Legislature the present mode of disposing of real estate. We have, we are pleased to say, Business men and capitalists would find every encouragement for believing that our plau will be successful; alike remunerative to the friends of the enterprise, and beneficial to our charitable and educational institutions by contributing as required by the char ter a portion of our revenues in aid of the Poor and School Funds of the State. The friends of this enterprise are well aware of the prejudice that has long existed in the minds of our people against lotteries, and in many instances not without good reason .-Appreciating therefore the difficulties with which they will necessarily for a time be called upon to contend, they have endeavored by the selection of integrity as officers to fill the different

gentlemen of known character and departments to quiet the apprehensions of the scrupulous and incredulous. In this respect at least they can now flatter themselves that they have been exceedingly fortunate in procuring the services of such old and well known citizens as Messrs. W. F. Davidson and A. H. Martin to fill the important offices of President and Treasurer. This appouncement will be at once an earnest to the public of an anxious and settled determination on the part of the company to carry out to the letter the provisions of their charter, and to discharge faithfully all trusts confided to their keeping and management. The granting of lottery powers in this State is by no means a novelty much less an innovation upon the history of our legislation. An act was obtained appointing four Commissioners in Wilmington in the year 1760 for the purpose of raising funds by the exercise of lottery powers, to be expended in furnishing two churches

in the Parishes of St. James and St.

Phillips, in the county of New Hano-

ver. Another act was also obtained

in or about the year 1836, for the pur-

pose of supplying the necessary funds

with which to erect a Masonic Hall at

Hillsboro. These enterprises were

managed by, and received the appro-

val of the most prominent and influen-

tial men of their day and time in the

State. A charter therefore to enable

our people to dispose of the surplus of

their lands with greater facility and

certainty, and to convert their dead

capital into active, available and pro-

fitable means, cannot be looked upon

if properly managed, otherwise than

as a powerful lever in devoloping the

resources of the State, adding wealth

to the depleted coffers of our poverty

stricken people, and as a benevolent

and charitable institution contributing

to the intellectual culture of the rising generation, and aiding in amelior-

ating the suffering condition of a large and unfortunate class of our citizens, who have been reduced to a state of almost hopeless pauperism. The operations of this Company, carrying out the objects contemplated in the charter as may be hereafter seen in the arrangements of their schemes and plans of distribution, will be confined exclusively to the disposal of real estate by the sale of certificates, and no prizes other than simple prizes for realty, or optional prizes based on realty, will be incorporated in any scheme or awarded at any distribution. From the character of the men placed at the head of the affairs of this Company, the country has a guaranty that the purposes for which it has been incorporated will be strictly adhered to, and public confidence not misplaced or abused. Hoping therefore by a uniform system of integrity and fair dealng to commend this institution to the favorable consideration of the public. we respectfully refer all persons desirous of making sales of their real estate through the agency of this company to the President's advertisement which will be found below.

> Bespectfully, H. M. PRITCHARD. JOHN PHELAN, S. C. BARNETT. E. A. McLEOD, W. W. GRIER, S. W. DAVIS, Incerporators.

Catawba Valley Land Company Desirous of arranging at the earliest possible day, a scheme for the first distribution, notice is now given to all persons wishing to dispose of their lands or other real estate, through the agency of this Company, to file at once with the President, bonds for titles. No lands or other property will be entered for sale unless the titles are olear and unincumbered, and in all cases when necessary, the acknowledgement of wife must be had. Properties will not be taken at extravagant or fabulous valuations, and before entering the same on the books of the company for sale, a small entrance fee will be required of each person

CAUTION!

We desire to warn the desiers in, and consumers of snuff generally, that since the war, certain tobacco manufacturers, being inable to find a market for their snuffs, felt themselves obliged to country.

ter for their suurs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks, so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert than "Loritard's Snuff is no longer made."

In making this publication we desire to warn the public scalars the insers thereby. It will be found upon bomparison that Lorilard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to curselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of the many worthless articles put on sale by others. The heart is the chappen in the end. A circular will always be mailed on application: In ordering please specify if Sait Snuff (High Teast), or Fresh Snuff (Extra Scotch) is desired.
